The survey

Since June 2009 CBS has evaluated the academic year of each study. Students in each year of a specific programme receive an evaluation form where they are asked about the academic year of their study, which they have just completed.

These evaluations serve three main purposes:

1. To collect information about the student experience as regards the continuity and progression of a programme, covering, in particular, areas that are not evaluated in the regular course evaluations.
2. To collect information to serve as documentation in the national and international accreditation process.
3. To ensure that evaluation results are systematically published on CBS' homepage without risking identification of individual teachers (under the heading 'Academic year evaluations' at <http://www.cbs.dk/en/about-cbs/organisation/quality/teaching-evaluations/analyses-and-reports>).

We hope you will find the report useful in its present form and welcome any feedback regarding structure etc.

This report divides all the studies in different groups. You can see the subdivision below.
